

Patents ★ Trade Marks ★ Designs ★ Regulatory ★ Commercial IP Specialists

About Us

Margo® Attorneys, Inc. is a dedicated, specialist firm, operating a complete IP filing and maintenance service, managing portfolios of patents, trade marks and designs the world over. As a natural extension of this, our service offerings include:

- ★ litigation and the assertion of IP rights; and
- ★ IP management & commercialization services, including the preparation of technology, legal and specialist taxation opinions, and;
- ★ the drafting of commercial agreements; and technical regulatory matters.

Our Services Generally

Over the years, we have also developed a niche reputation for our expertise in tax deductions, allowances and opportunities that have IP as basis, notably: R&D tax incentives.

Our regulatory practice extends predominantly to agrochemicals, pharmaceuticals, alcohol, foodstuff, and other restricted technical areas.

Established in 2009, our reputation and reach speaks for itself.

We speak the language of science & technology with engineers, the language of tax with accountants, and the language of legal risk and interpretation with financial professionals.

For almost a century, the name **"Margo"** has been synonymous with intellectual property and tax. That tradition of excellence continues in Margo® Attorneys, Inc.
