

FIRM PROFILE

Margo™ (Intellectual Property) is the trading style of Margo Attorneys, Inc., a niche intellectual property law firm and taxation consultancy. Margo™ (Intellectual Property) is a specialist firm, concentrating on the twin practice areas of:

- income tax deductions, allowances and incentives having intellectual property (“IP”) as basis; and
- IP management & commercialisation, including the preparation of technico-legal and taxation opinions, and the drafting of commercial agreements.

In addition to this, we boast a full-service IP filing, maintenance and litigation division, concentrating on:

- the prosecution and maintenance of registered trade mark, design and patent protection in South Africa;
- (for our South African clientele) obtaining and maintaining corresponding IP registrations, in any and all territories around the world; and
- IP litigation services.

Margo™ (Intellectual Property) prides itself on being a dedicated specialist, equally, in the demanding disciplines of IP law, taxation and technology. All work, without exception, is conducted by a qualified patent attorney, trade mark attorney and/or tax practitioner, as required. We speak the language of science & technology with your engineers, the language of tax with your tax accountants, and the language of legal risk and interpretation with your financial directors. Margo™ (Intellectual Property) offers the definitive end-to-end service offering.

On engagements involving income tax incentives, we utilise electronic tools and established processes to conduct non-intrusive, time-effective assessments.

All IP filing and maintenance matters are conducted seamlessly and efficiently, owing to well-established networks of international correspondents, and established, tested filing protocols.

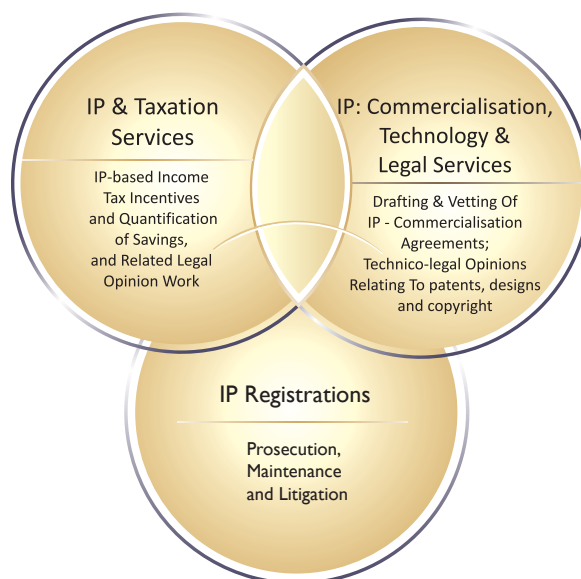

At all times, our attention is focused on the practicalities of our clients’ specific business needs: optimising benefits available to our clients and minimising risk is a core focus of our attention. At Margo™ (Intellectual Property), there is no substitute for only the highest level of technical expertise, in all disciplines.

For six decades, the name “Margo” has been synonymous with intellectual property and tax. That tradition of excellence continues in Margo™ (Intellectual Property).

SERVICE OFFERINGS
